Issue #73 (7 November 2006)

The Yin Earth Pig month has started.  
The dominant energies for this month will be Water and Earth.  
These elements are generally positive for the Nasdaq Index.

Our FPF index for Nasdaq will peak this November and then turn negative for December.  
So we look for a market top , next a correction into year end and early 2007.

Here is our FPF prediction chart for the Nasdaq :

(Predictive chart made with FPF 1.1 software, available at <http://www.fourpillars.net/finance/fpf.php>)

## Nasdaq

The Nasdaq reached our profit objective at 2350-2400.

Because November still has positive FPF value we may see some further upside, but at 2400 we would start bumping into overhead trendline ceiling.

It is not worth waiting for this little extra profit.

This is a good opportunity to take profits and watch from the sidelines.

We will be entering our Metal months bottom period, which is a time when I usually prefer to be out of the stock market.

We will see at which prices we can get back in around the New Year.

A drop back to 2200 or even 2100 is well possible with this chart.

Here is our updated prediction chart for Nasdaq:

# Gold

Gold market managed to stay inside the old uptrend, and the danger of dropping even lower to 100 level is waning.

Since our gold market prediction chart is well set to go up nicely next year, we can start looking to take new positions in this market.

You can now buy gold stocks on any drop towards 130 or lower.

There is excellent potential for a break out to the upside next year.

Here is the updated chart:

## Euro - US Dollar

The Euro continues to go sideways.

Our buy target at 1.24 has not yet been reached.

Just continue to wait and be ready to buy on a drop to 1.24 or lower in December or January.

This market also appears set for a rise next year.

The most difficult skill for an investor is not about picking the exact bottom or top in every move. Because that is impossible anyway..  
The most difficult is to WAIT (and sometimes wait months) till the time is right.
